

NRC ENVIRONMENTAL SERVICES ACQUIRES TRIDENT PORT SERVICES CORPORATION

PRESS RELEASE

ALAMEDA, CALIFORNIA
JANUARY 2, 2008

FOR IMMEDIATE RELEASE—NRC Environmental Services, Inc. (NRCES) announced today the acquisition of Trident Port Services, Inc. (D/B/A Trident Management, Inc. and Trident Management Company) a privately held company responsible for the management of the City of Alameda's Port Operations. Trident has served public and private organizations in the San Francisco Bay Area for over 12 years.

Strategically located in Alameda, California, Trident will complement NRCES' already well positioned resources that provide rapid and efficient services throughout the Bay Area and greater Northern, Central, and Eastern California. In addition to several highly skilled employees, Trident also brings additional equipment (Four Deck Barges, a 65' Crew Boat, Vessel Fendering, and an assortment of smaller equipment) to augment NRCES' existing capabilities. By merging the strengths of Trident into NRCES, the company expects continued growth and service expansion within the San Francisco Bay Area and Northern California.

"This transaction is a very strategic move for NRCES as we continue to expand our portfolio of services", said Todd Roloff, NRCES Vice President. "We are excited to integrate the additional resources and expertise of Trident. This acquisition will further enhance our ability to provide rapid responses to our clients located in this region." In addition to being the primary services provider for The Port of Alameda and its largest and most significant tenant, The Maritime Administration (MARAD), NRCES also looks forward to even greater participation in the Alameda/Bay Area community; recent outreach included the hiring and training of local personnel from the Oakland, CA based Ella Baker Center for Human Rights/Work Program to support the recent Bay Bridge oil spill clean up.

NRCES is part of SEACOR Environmental Services, a wholly owned subsidiary of SEACOR Holdings Inc. (NYSE: CKH). NRCES is the West Coast leader in providing land and marine emergency response services as well as environmental remediation and industrial services. NRCES has numerous West Coast offices including Seattle and Spokane, WA; Portland, OR; and Chico, Eureka, Sacramento, Alameda, Long Beach and San Diego, CA. For more information about NRCES' services visit www.nrces.com.

Trident is a "hands on", marine services company that offers boom operations, crane services, deck barge services, vessel tank cleaning and transfers as well as non hazardous waste water treatment services throughout the San Francisco Bay Area. Trident solves its clients' environmentally related problems ranging from complex vessel oil transfers to non hazardous bilge water treatment and disposal.
